PARAVAN

PR 35 S

Only the best for the little ones

Our PR 35 S is a very special power wheelchair. It is small, compact, colourful and versatile. In other words, ideally developed and tailored to the needs of our smallest customers. Lying down, standing up, tilting - all functions are on board. And the 30 percent smaller chassis also makes the wheelchair extremely agile. Just the way children love it! Whether at day care, school or at home - our PARAVAN PR 35 S is made to be actively involved. Right in the thick of the action!

YOUR BENEFITS

Highlight: Standing, sitting, lying & tilting

Modern, flexible power wheelchair with comprehensive features as standard for children or smaller adults.

Highlight: Growing seat concept

The seat concept of the PARAVAN PR 35 S grows with the user, making the wheelchair the perfect companion from childhood to teenage years.
