# FORD TOURNEO CUSTOM

## For special requirements

Riding along or changing seats, the Ford Tourneo Custom's handicapped accessible conversion offers many possibilities. With the standard linear lift, you can comfortably get into the interior with your wheelchair. The PARAVAN transfer seat base makes it easier to transfer from the wheelchair directly to the driver's seat. The levelled interior from the rear to the B-pillar creates greater interior height and absolute accessibility - regardless of whether you are driving along or driving yourself.

Dimension based on Ford Tourneo Custom with wheelbase L2

\*Example with linear lift AL1Solid 1130

Height limit:	1280 (1590) mm	Interior height:	1370 (1660) mm	Interior width:	1340 mm
Ramp width:	830 mm	Eye level:	1150 mm	Ramp length:	1130 mm

NOTE: The measurement and consumption information provided by the original manufacturer may no longer be correct after the conversion
