

Lifting capacity up to 330 kg

Can be operated at the touch of a button

CASSETTE LIFT

The powerful and reliable wheelchair lift
from PARAVAN

- Processor takes over digital control
- Splashproof cassette compartment (IP54)
- Middle position (entry position) can be approached from above or below
- Lifting position of the platform can be adapted upwards or downwards depending on the vehicle (up to 4 cm)
- No mechanical limit switches; electronic control instead
- The roll-down flap can be opened and closed in any position below the entry position (an advantage for kerbs or in slanting positions)
- Small, compact hydraulic power unit
- Easy access to fuses
- Rustproof finish (aluminum, stainless steel, electro-galvanised)
- Automatic safety shutdown
- Electrical and manual operation in case of emergency
- Cable remote control standard, Radio remote control and app control available as an option (PARAVAN system)
- Can be built into many suitable types of vehicles due to the universal mounting points
- Great lifting height (up to 914 mm)
- The roll-down flap can be varnished in the same colour as the car
- Platform sizes: 1000/1182 mm x 788 mm
- Load-bearing capacity: max. 330 kg
- Weight: approx. 190 kg
- Time to deploy/stow platform approx. 13 sec
- Travel time from ground to floor level or reverse approx. 9 sec.
- Visual and audible warning signal
- Modification on right side of the ramp to approach from the side: 455 mm
- Complete in-house development and production at PARAVAN
